Trade in Services Agreement (TISA)

Switzerland – Revised Swiss Offer

Attached is the revised offer on trade in services submitted by Switzerland. Compared to Switzerland's initial offer, this revised offer includes in particular adjustments in Section A and Chapter 12. This offer is subject to ongoing internal consultations. Switzerland reserves the right to complement, modify or withdraw this Schedule in whole or in part or to make technical changes at any time of the negotiating process.

The deletions are marked in strikethrough and red color; the new texts are marked in red.

The offer follows a hybrid approach, with market access commitments being scheduled on a positive basis and national treatment commitments on a negative basis. Ratchet and Standstill obligations apply in the NT column in Part II of this Schedule according to Article II-2 of the draft core text provisions of the TISA.

The issue of MFN exemptions will be added when the corresponding provisions in Part I and Part II of the draft core text are stabilized, if any. Similarly, commitments of Switzerland related to Air Transport and Maritime Transport Services and Maritime Auxiliary Services are not included in this offer.

Switzerland would continue to revise its offer inter alia on the basis of the development of texts on so-called "new and enhanced disciplines" and may adapt the offer as it considers appropriate as a consequence.

<p>General remarks:</p> <ul style="list-style-type: none"> - The level of commitments in a particular services sector shall not supersede the level of commitments undertaken with respect to any other services sector to which such service is an input or to which it is otherwise related. - CPC numbers indicated in parenthesis are references to the UN Provisional Central Product Classification (Statistical Papers, Series M, n° 77, Provisional Central Product Classification, Department of International Economics and Social Affairs, Statistical Office of the United Nations, New York, 1991). This schedule covers the sectors and subsectors related to services contained in the Services Sectoral Classification List, i.e. sections 5 to 9¹. The sequence of sectors and subsectors in Part II reflects Document MTN.GNS/W/120, dated 10 June 1991. - Unless otherwise provided for, requirements of residency, domicile, commercial presence, etc. in a commitment relate to the territory of Switzerland. - Attachment I to this schedule forms an integral part thereof. <p>Remarks concerning scheduling method and conventions:</p> <ul style="list-style-type: none"> - Switzerland undertakes its specific commitments in accordance with Part II of the agreement. - This schedule follows a hybrid approach where market access commitments are listed positively and national treatment commitments are scheduled negatively. - In accordance with the negative approach, "conditions and qualifications" to national treatment are inscribed in the national treatment (NT) column only to the extent that full national treatment is not granted. The absence of an inscription amounts to a "none". In the national treatment column, all sectoral commitments on mode 4 are those inscribed in Part I; as a consequence Part II does not contain further specific commitments on mode 4 for national treatment. The symbol "\$" after a sectoral limitation on mode 4 inscribed in Part II clarifies that the level of mode 4 commitment for the corresponding sector or subsector is that of Part I complemented by the sectoral limitation inscribed in Part II. - With regard to ratchet and standstill obligations, this offer is scheduled according to Article II-2 "Scheduling of National Treatment Commitments" of the TISA core text provisions. - "(See above)" in the national treatment column in sector specific commitments means that the corresponding sectors or subsectors and modes are unbound. - "Unbound*" in the market access (MA) column indicates that the commitment is "Unbound due to lack of technical feasibility". When "Unbound*" is inscribed in the market access column it applies also to the national treatment column in the corresponding subsector.
